

# Multifunction Timer

The Multifunction timer has 5 functions and 4 time ranges.

These are selectable using 2 front mounted rotary switches.

The time is adjustable on the timer front and can be connected to the supply voltage which can have a range of 10.5-265V AC/DC.

It has a single or double relay output with LED indication of the energised relay.

**Specifications**

Supply Voltage	10.5-265V AC/DC
Mains Frequency	40 - 440Hz
Power Consumption	0.5 - 3VA
<b>Protection</b>	
S1 / S2	IP40
D1	IP20
<b>EMC</b>	EN 50081-1 / EN 50082-2
Isolation: Supply to relay contacts	2kV AC to EN 60950 Class I
Ambient Temperature	-20 to +55 ° C
Weight	80g

**Dimensions (mm)**

Front view dimensions: 13, 53.5, 10, 6  
 Side view dimensions: 47, 10, 53.5, 6  
 Top view dimensions: 27, 75, 45

**Connection Configurations**
